PROFILE

Mobile Product Engineer with 4 years of software development experience, including 2+ years building cross-platform mobile applications with React Native, Expo, TypeScript, and Flutter. Experienced in owning mobile development from technical definition and architecture to iOS/Android releases and production maintenance. I work closely with product, design, and backend teams to translate business requirements into scalable technical solutions, with a strong focus on maintainability, product impact, and delivery.

PROFESSIONAL EXPERIENCE

Mobile Developer · [OdaClick](#)

Jun 2024 – Present

- Lead the development and evolution of cross-platform mobile applications using React Native, Expo, TypeScript, and Flutter, from technical planning through production releases.
- Define scalable mobile architecture applying Clean Architecture, modular design, and offline-first patterns to improve maintainability and feature delivery.
- Own mobile release workflows across iOS and Android, including EAS builds, TestFlight, App Store Connect, and Google Play distribution.
- Work with product, design, and backend teams on REST API integrations, technical planning, documentation, code reviews, and developer coordination.

Mobile & Front-End Developer (Freelance) · [Global View](#)

Jan 2026 – Jun 2026

- Maintained and evolved backoffice systems and mobile applications running in production.
- Implemented new features and performance optimisations on legacy code while preserving operational stability.

Technical Facilitator · [Universidad del Desarrollo – BootcampsUDD](#)

Jun 2024 – Jan 2025

- Mentored students through web development projects with individual follow-up, code review, and technical guidance.
- Led project-based learning sessions grounded in real-world tools and industry practices.

Front-End Developer · [DasCalendar](#)

Oct 2023 – Mar 2024

- Built a unified scheduling solution integrating Google Calendar and Microsoft Outlook APIs.
- Implemented authentication flows and event synchronisation using React, TypeScript, Redux, Zustand, and Tailwind CSS.

Full Stack Teaching Assistant · [Henry Bootcamp](#)

Jun 2023 – Oct 2023

- Supported student groups through practical exercises and full stack projects using JavaScript, React, and Node.js.

Full Stack Developer · [SOS Red de Asistencia](#)

Jan 2022 – Dec 2023

- Designed and developed an internal intranet platform for operational management with React, Node.js, and a relational database, from data modelling to user interface.

PROJECTS & ENTREPRENEURSHIP

Co-Founder & Tech Lead · [Orisen](#)

2025 – Present

- Lead the technical development of a mobile-first assistive technology product, defining architecture, mobile stack, AI integrations, and product roadmap from concept to functional prototype.
- Coordinate product and technical decisions across mobile software and connected-device capabilities focused on improving mobility and independence for visually impaired people.

TECHNICAL SKILLS

Languages TypeScript · JavaScript · Dart

Mobile React Native · Expo · Flutter · iOS · Android

Mobile Delivery EAS · App Store Connect · TestFlight · Google Play Console

Frontend React · Next.js · TanStack Query · Redux · Zustand · Tailwind CSS

Backend & Data Node.js · REST APIs · MySQL · PostgreSQL · MongoDB · SQLite

Architecture & Practices Clean Architecture · Offline-first · Git · Scrum · Figma

AI-assisted Development Claude Code · Codex · AI agent workflows

EDUCATION & CERTIFICATIONS

Full Stack Web Developer · Henry Bootcamp (2023)

Law Studies · Universidad FASTA (2021 – 2023)

Certifications Scrum Foundation (CertiProf) · TypeScript and Dart (CódigoFacilito) · Introduction to Mobile Development

Languages Spanish (native) · English (B1 – intermediate)
